

STATEMENT

My name is Ronnie Callahan. I reside at 501 2nd Street in Palacios, TX 77465. Between 1983 and 1986, I was a participant in three commercial construction projects, which took place in a building at Commerce and 5th Streets in Palacios, TX. The work was performed for City State Bank.

The first project was to construct offices in the front of the building. The second project was to finish part of the back of the building, which was used later as a meeting room for the bank. The third construction effort involved finishing the second floor in preparation for a vocational training program for the Palacios Independent School District.
